CITY WATER AND LIGHT BUSINESS

FINANCIAL REPORT IS MADE ON TRANSACTIONS FIRST HALF FISCAL YEAR

BUDGET IS EXCEEDED

RECOMMENDATIONS ARE MADE BY CITY MANAGER UPON COMING SIX MONTHS

Report upon the financial condition of the city's water and light departments, for the first half of the fiscal year, together with recommendations for adjustments in budget appropriations, was submitted to the board of city trustees last night by T. W. Watson, city manager.

The report showed the volume of the water and light business as being greatly in excess of the budget estimates. The report, in full, follows:

"We respectfully submit herewith financial statement of water and light business for the first half of the present fiscal year together with recommendations for adjustments in budget appropriations necessary on account of increase in business as estimated at the time the budget for the present fiscal year was prepared.

Total Revenues Are Given

"The total revenue of the water and light business for the six-month period ending December 30, 1920, was $145,327.58. Total operating expense including interest on outstanding utility bonds and allowance for depreciation was $94,930.98. Excess revenue over expense was $50,396.60. Reserve for depreciation deducted from revenue as an expense item was $12,301.34. The total of excess revenue and depreciation was $62,697.94. This amount was available for retirement of outstanding utility bonds and for reinvestment in extensions and betterments to the water and light systems.

"The volume of the water and light business has been greatly in excess of the budget estimates during the first half of the present fiscal year. The income from the water business during this period was $60,701.73, which was $14,560.17 in excess of the estimate. The income of the light business for the period was $84,625.85. This was $17,131.36 in excess of the estimate from the lighting business for the first half of the present fiscal year. The total income for the period in excess of budget estimates for water and light business was $31,691.53.

Estimate Over Budget Figures

"It is estimated that the increase over the budget estimates in the volume of business during the second

(Continued on Page 7)

BUSINESS TRIP

MR. AND MRS. T. F. PEIRCE GO TO SAN FRANCISCO; WILL VISIT AT DEL MONTE

Mr. and Mrs. T. F. Peirce of 317 West Vine street will leave this evening for San Francisco on a business trip. They will spend the week-end at Del Monte.

Mr. Peirce is manager of a show case and fixture company that has a store in San Francisco and one in Los Angeles. The Los Angeles branch has been forced, on account of increased business, to move to larger quarters. It has a fine new display room on South Spring street.

Jackson C. Waite, 407 South Central avenue, formerly employed in the Los Angeles branch, has been transferred to the San Francisco office and Mrs. Waite will leave shortly to join him.

BECOMES BRIDE

MISS KATHERINE COPELAND IS WEDDED TO CAL WAINER; TO RESIDE IN HOLLYWOOD

Cal Wainer of Los Angeles, who has been conducting the Park avenue dances, and Miss Katherine Copeland of Hollywood, who has been assisting as ticket seller, were married at the home of the bride's aunt in Hollywood last Sunday. The ceremony, to which over 100 guests had been invited, took place out of doors. Miss Marion Gamble and Langley Meredith of Glendale were among those present.

Mr. Wainer has purchased a grocery business in Hollywood, in which city the young couple will reside after their honeymoon trip.

Resolution Passed By M. E. Brotherhood On Samuel Parker's Loss

The monthly business meeting and banquet of the Brotherhood of the First Methodist Episcopal church was held in the social hall last night. The banquet was in charge of J. G. Peart and his committee and commenced at 6:45 o'clock. Then came a statement of plans by four vice-presidents, F. G. Edwards, J. G. Peart, C. D. Lusby and J. P. Fanset. The plans promise an active campaign for the coming year along athletic, social, membership and spiritual lines.

A resolution respecting the death of one of the members of the Brotherhood, Samuel Parker, was adopted as follows:

"Whereas, The Brotherhood of the First Methodist Episcopal church has suffered a distinct loss in the recent decease of our beloved brother, Samuel Parker, a member who was always faithful, and present when physical strength would permit; therefore, be it

Resolved, That we publicly record our great loss and express our deep appreciation of Brother Parker's Godly example; we recommend to our entire Brotherhood that we emulate his many virtues and fidelity to high Christian ideals."

Dr. Tilroe Makes Address

Dr. W. E. Tilroe, pastor of the Lake avenue Methodist Episcopal church of Pasadena, made the address of the evening, taking for his topic "The Bible Church." It was considered a stirring message to the Brotherhood "to know God themselves and then carry the good tidings of great joy to the men all around them who have not as yet become personally acquainted with the Creator."

The early church, according to the speaker, was largely a layman's church, a man's church, and no power on earth could stay its progress. Too largely today the error is prevalent that the work and success of the church is largely up to the preachers and that the mission of the church is mainly to the children and the women, he held. Continue the interest along these lines, but go out after the men, he urged.

There is not much credit in in-

(Continued on Page 3)

MAKING MOVES

REPORT IS GIVEN ON THOSE WHO HAVE CHANGED THEIR RESIDENCE RECENTLY

Moves of Glendale people during the last two days not mentioned elsewhere in this issue were as follows:

E. J. Curran from 471 Ivy to West Elk, near San Fernando Road; J. J. Sisson, from 306 East Lomita avenue to 124 West Palmer avenue: J. E. Evans from 1120 North Louise to 1020 East Vernon avenue, Los Angeles; H. B. Ignatius from 1625 South Glendale avenue to 1639 South San Fernando Road; Florence Noble from 727 South Maryland avenue to 133 South Cedar; Chas. F. Miller from 221 East Broadway to 1126 West 74th street, Los Angeles; T. G. Ake from 1506 Gardena avenue to Grand View cemetery; J. Harry White to 710 North Pacific avenue; M. Brogan to 715 South Louise, J. W. Krueger to 745 East Wilson avenue, C. Hilding to 125 South Isabel.

PREPARE HOMES

MORE NEW RESIDENCES ARE BEING CONNECTED WITH SERVICE DEPARTMENT

Every day sees more new houses prepared for occupancy in Glendale. The list for the last two days, as indicated by light meter installations ordered, is as follows:

Everett O. Smith, 900 South Glendale avenue; J. M. Cline, 459 West Broadway; Mary E. Martin, 206 North Jackson; Wm. Heal, 1207 North Central avenue; J. A. Wright, 122 South Maryland avenue; C. W. Bartow, 464 West Lexington Drive; C. A. Blanchard, 407 Milford; M. A. Salyer, 1253 Walnut; J. H. Gewinner, 1134 Campbell; A. W. Bather, 367 West Broadway.

MUST INCLUDE ALL AIR FORCES

WASHINGTON, D. C., Jan. 22—An agreement for world disarmament must include air forces and all other branches of warfare, Secretary Daniels declared in commenting on suggestions that Great Britain was ready to limit battleship construction because she was concentrating on air development.

"The United States should not be inferior in any branch of naval warfare," Daniels said.

ASKS ACTION ON SEWAGE SYSTEM

CITY MANAGER SENDS LETTER TO INDIVIDUAL MEMBERS OF TRUSTEES' BOARD

MAKES FOUR POINTS

SUGGESTIONS ARE MADE FOR MEETING PROBLEMS OVER METHOD OF DISPOSAL

Members of the board of city trustees are in receipt of a communication from T. W. Watson, city manager, relating to the city's sewage problems. The communication has not been filed officially with the board, but is addressed to its individual members.

The communication, among other things, makes the suggestion that some action be taken to meet the sewage disposal problem and four points are outlined.

Accompanying the communication is a copy of the proposed agreement with Olmsted & Gillelen, sanitary engineers, that firm having done some preliminary work for the municipality.

As told in The Evening News recently, the city manager proposed that a committee of twelve be chosen to investigate one of the plans submitted by the engineering firm for sewage disposal, then report to a mass meeting, but so far no action has been taken.

Communication to Trustees

Following is the city manager's communication to the individual members of the board of trustees:

"Enclosed herewith is copy of proposed agreement between Olmsted & Gillelen and the city of Glendale in regard to the preparation of plans for sewage disposal.

"I would suggest an addition to this contract providing that Olmsted & Gillelen may submit any other plan or plans than the one specified and if the committee should approve a plan submitted by Olmsted & Gillelen other than the one specified in the contract such plan would have the

HOSTESS AT TEA

MRS. W. H. DOTSON ENTERTAINS WITH PLEASING AFTERNOON AT 333 WEST HARVARD

Mrs. W. H. Dotson was hostess yesterday at a very pleasant silver tea, at her home, 333 West Harvard street.

Musical numbers were an enjoyable feature of the afternoon's program. Mrs. Frank Patch sang "In the Afternoon," and "A Bowl of Roses" in her usual finished, musicianly manner. Her accompaniments were played by Mrs. Andrew Keller, who also favored the company with several delightful piano solos.

Guests of the afternoon were Mesdames S. R. Wood, Morrison, Reed Heustis, Mary Arfwedsen, R. T. Burr, A. Green, C. A. Perry, W. Brummell, L. A. Long, W. A. Tanner, A. V. H. Pemberton, Hale, F. H. Heusman, C. C. McLean, M. W. Gannon, F. C. Bishop, Frank Patch, C. F. Buechler, A. L. Keller, C. A. Redmond, Peter C. Moes.

Refreshments of tea, sandwiches and cake were served by the hostess. The silver offering amounted to $9.55, and will be used by the ladies for necessary materials in the Sunday school of the Church of the Holy Family.

NEW RESIDENCES

PERMITS ARE GIVEN OUT BY CITY AND HOUSES ARE UNDER CONSTRUCTION

A permit was taken out yesterday by F. C. Hodson for the erection of an eight-room duplex residence at 334 West Eulalia, to cost $4500.

Building New Home

W. J. McMillan and O. L. Monding are building a three-room house at 830 East Colorado, the cost of which is given in the permit as $1000.

Starts Work on Home

Wm. George Hunefeld has commenced the erection of a three-room residence at 537 Pioneer Drive, to cost $2000.

Residence and Garage

A two-room residence and garage, to cost $300, is called for in a permit issued to O. F. Morgan. The location is 1146 East California avenue.

MRS. PEETE WILL GO ON WITNESS STAND

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 22.—Mrs. Louise Peete, awaiting resumption Monday morning of her trial on a charge of murdering Jacob C. Denton, expressed confidence in the outcome of her trial.

"I am more confident than ever before of acquittal," said Mrs. Peete. "I do not fear the ordeal of taking the witness stand."

She is expected to be her own star witness about the middle of next week.

It was predicted today that the case will be given into the hands of the jury before next Saturday.

SOVIET OFFICIAL AND STAFF LEAVE U. S.

(Special Service to Glendale Evening News)

NEW YORK, Jan. 22.—Ludwig C. A. K. Martens, soviet "ambassador," bade a smiling farewell to the United States today, announcing that Russia stood ready to do business with America whenever this country desired.

Ordered deported on the grounds that he represents a government which is seeking the overthrow of the United States government, Martens and about fifty members of his staff embarked today on the Swedish-American liner Stockholm.

SEN. JOHNSON WOULD AID CITRUS GROWERS

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 22.—Senator Johnson of California today announced that he is planning a vigorous fight in the senate in behalf of California interests when the emergency tariff bill comes up for discussion. Johnson is particularly interested in the proposed emergency rates on citrus fruits. He has introduced an amendment to increase the tariff on lemons from one and one-fourth cents, as provided in the bill, to two cents.

DETECTIVE DEAD, TWO PATROLMEN DYING

(Special Service to Glendale Evening News)

SEATTLE, Wash., Jan. 22.—Detective James O'Brien is dead, two patrolmen are reported to be dying, and John Smith, bandit, is in the city jail slightly wounded as a result of a revolver battle in the streets here early today. Smith opened fire without warning when he was approached by the policemen.

FIFTY-SIX ON SUBMARINE REPORTED LOST

(Special Service to Glendale Evening News)

LONDON, Jan. 22.—The British submarine K-5, with a crew of six officers and fifty men, was lost in the English channel Thursday, it was announced today. Details of the accident were not made public.

ALL DAY MEETING

MRS. H. C. BINNS IS HONORED AT GATHERING BECAUSE OF HER BIRTHDAY

The Ladies' Aid of the Christian church held their regular all day meeting in the social hall of the church on Thursday.

The sewing of garments for Near East relief was the work of the morning hours.

The noon dinner was an unusual event, one that will mark the occasion as a red letter day for Mrs. H. C. Binns, of 110 East Maple street, for, happening to discover that it was her seventy-ninth birthday, the ladies of the society arranged a surprise birthday dinner for her.

The large table, where covers were laid for twenty-six, was gay with flowers and centered with an immense birthday cake made by Mrs. O. L. Kilborn. It was resplendent with pink candles and the figures "79" done in pink icing, and when dessert was served and this cake was cut by the guest of honor, "Grandma Binns," it proved as delectable to the taste as it was to the sight.

Toast and Response Made

Mrs. Daugherty, president of the Ladies' Aid proposed a toast to the honored "birthday child" expressing the love and esteem in which she is held by her associates. Although she was quite overcome with surprise and joy, Mrs. Binns responded gracefully, in a little speech in which she told how much she appreciated the esteem of her friends, and how this day would live forever in her memory.

COPIES OF PROPOSED CHARTER

There is a brisk demand for copies of Friday's issue of The Evening News containing the proposed city charter, showing that the public is interested in learning just what changes are suggested in the form of government. Those wishing copies of Friday's paper must act at once, as the supply is fast being exhausted.

Peter L. Ferry, local contractor, left this morning for New Orleans, where he will attend a national gathering of the Association of General Contractors, to be held January 27, 28 and 29.

GIVEN RECEPTION

PROFESSOR ALFRED COOKMAN AND BRIDE ARE GUESTS AT BUCHER RESIDENCE

A reception was given to Professor Alfred Cookman and his bride last night by a large number of his Glendale and out-of-town friends at the home of Dr. and Mrs. W. H. Bucher of 610 West Broadway. Beautiful decorations of various flowers of the season were used. The following splendid program was one of the interesting features of the evening:

Cornet solos by Chester Aston, accompanied by Miss Lela Whitehead, both of Glendale; vocal solos by Miss Ethel Snaveley of Los Angeles, who has sung at several of the large playhouses in Los Angeles; readings by Miss Helen Chase of Whittier; vocal solos by Mrs. Leland Hawkins of Moneta, and violin selections by Miss Genevieve Mulligan of Glendale.

Following these delightful numbers, dainty refreshments of ice cream and cake were served. At the close of the evening the host of friends present showered the newly-married couple with gifts both beautiful and useful.

TRIP TO EUROPE

MRS. DOMINIC RUGGIERO WILL LEAVE GLENDALE NEXT MONTH ON JOURNEY

Mrs. Dominic Ruggiero, 320 Arden avenue, will leave Glendale on February 7 for a trip to Europe.

Mrs. Ruggiero will sail from New York on the Adriatic on February 16. She will go directly to Paris, where she will visit the grave of her brother, who was mortally wounded in the battle of Belleau Wood and died two weeks later.

She will then go to Naples, Italy, stopping en route at various points of interest.

21 ALLEGED VIOLATORS

Twenty-one alleged violators of the traffic law appeared before Judge Lowe yesterday and a considerable sum in fines was added to the city treasury.

DISTRICT LINES OF ANNEXATION

NORTH GLENDALE TERRITORY TO VOTE ON COMING INTO CITY IS DESCRIBED

BALLOT FEBRUARY 19

POLLING PLACE AND ELECTION OFFICIALS SELECTED BY BOARD OF TRUSTEES

The annexation petition referred to the city trustees at last Thursday night's meeting is of far-reaching importance to the district, some of those interested say, as it is a step toward a satisfactory water service for the large district affected, which includes all that portion bounded by the Pacific Electric Burbank line, Grand View avenue, Kenneth Road and Pacific avenue, not now a part of the city; also, all of that section north of Kenneth Road and its easterly prolongation from Grand View avenue to the west line of the Thom ranch; a strip along the south side of Kenneth Road from Central avenue to Pacific avenue; a strip north of the Wash extending almost to Dryden, between Maryland and Melrose avenues; and a narrow strip west of Melrose avenue and its north-

(Continued on Page 7)

RETURNS HOME

DR. CAROLINE PAINE JACKMAN BACK FROM OREGON; SISTER ACCOMPANIES HER HERE

Dr. Caroline Paine Jackman, of 515 North Kenwood street, has just returned from a hurried trip to Medford, Oregon, whither she was called by the illness of her sister, Mrs. C. C. Bussinger. She brought Mrs. Bussinger, who is now much improved, back to Glendale with her. Mr. Bussinger is following by automobile, and will establish a home here in Glendale.

Dr. Jackman reports that she found the Sacramento valley under water, that she never saw the sun from the time she left Glendale until she got back, but that in spite of all this she was glad to find it raining here.

ARRESTED AGAIN

LOCAL CHIROPRACTORS ARE TAKEN INTO CUSTODY AND RELEASED ON BONDS

Deputy Albert Carter, acting for the American Medical association, yesterday arrested, for the second time within a few weeks, Drs. A. D. Cochran and Harry St. Clair, chiropractors, for practicing medicine without a license.

They were taken before Judge Northrup of Alhambra the same afternoon for a preliminary hearing and were placed under $200 bond each, to appear for trial next Thursday. At their hearing before Justice Miller recently they were released.

CHANGE NUMBERS

MAPLE, BETWEEN COLUMBUS AND PACIFIC, RAISED TO 10 HIGHER THAN BEFORE

Owners of property on Maple street, between Columbus and Pacific avenues, are being subjected to considerable annoyance now by having had their house numbers changed. Each number is just 10 higher than it was, that is, 406 is now 416, while 416 is 426, and so on.

This change was made after a goodly part of the city directory had been printed, so every number in that block on Maple is just 10 higher than the directory lists it.

POULTRY COLONY

HUNDRED THOUSAND HENS ARE ADDED TO DISTRICT IN 1920, IS ESTIMATED

The erection of eighty-five poultry houses, some of them very large ones, in the Van Nuys district, during 1920, has added 100,000 hens to that great poultry colony which now divides honors with Inglewood as the Petaluma of southern California.

DISCUSSION ON STREET PAVING

IMPROVING OF BROADWAY AT SAN FERNANDO ROAD TO BE MEETING TOPIC

LEAGUE IS ACTIVE

WEST GLENDALE ASSOCIATION ISSUED CALL FOR SESSION TUESDAY, JANUARY 25

The West Glendale Protectve association, which was instrumental in defeating the Commerical street project, is preparing to redeem the promise of its members to work for the widening and paving of Broadway west of Pacific avenue and in furtherance of the plan a meeting has been called for Tuesday night, January 25, in the High School building to talk over this and other street improvements.

Discussing this matter with Frank Marek, whose many years' work as city forester made him very familiar with all the streets of the city, an Evening News reporter was given some useful and interesting information as to the possibilities in this line.

Mr. Marek advocates the acquiring by the city while land is reasonable in price, of additional ground along the east side of San Fernando Road between Grand View avenue and Broadway, and further south if it is deemed advisable so that this most important thoroughfare could be widened to at least 120 feet.

Then the entrance to Broadway could be made in a graceful curve, which would be very inviting to motorists traveling south on the San Fernando Road.

Such a plan, in addition to the Pat-

(Continued on Page 7)

AID CANDIDATE

GLENDALE WOMEN PLEDGE TO HELP MAJOR LINEBERGER, REPUBLICAN NOMINEE

Representative women from the ninth congressional district, which includes Glendale, held a luncheon in the Union League club building on Thursday and expressed themselves as being eager to work in behalf of the candidacy of Major Walter F. Lineberger, the Republican candidate for congress.

Mrs. John Hyde Braly, 505 North Brand boulevard, was one of the Glendale women at the meeting. She is a staunch supporter of Major Lineberger and her advice to the women workers is productive of much good.

Mrs. Charles H. Toll, also of Glendale, president of the Los Angeles Ebell club, was one of the speakers and gave her promise that she would lend her efforts to Major Lineberger's candidacy.

SCOUT COUNCIL

PLANS FOR FURTHERANCE OF WORK IN GLENDALE ARE OUTLINED AT SESSION

The Boy Scout council held its meeting on Thursday night at the Intermediate school.

Plans for the furtherance of Boy Scout work in Glendale were discussed. A committee was appointed to investigate the advisability of uniting with the county council. It is the hope of Glendale council to become a first class council. This requires the employment of a scout commissioner who will give all of his time to work among the boys, and the funds for the salary of such a commissioner are not available at present.

The committee appointed to consider this matter is Roy L. Kent, chairman; Captain Wattles and Mr. Kellogg.

SEEKS LOCATION

A. H. REEVES, FORMER CHICAGO RESIDENT, DESIRES TO RESIDE HERE

A. H. Reeves and wife, Mrs. G. H. Nash and Miss Dorothy Rae, who came out to Los Angeles from Chicago two months ago are diligently seeking a location in Glendale.

Mr. Reeves has formed a connection with one of the big Los Angeles banks, but he and the rest of the party are very desirous of living in Glendale.

J. F. Stanford
Glendale 198-W 112½ S. Brand

VAIL REALTY CO. is located at 624 East Elk avenue. We have homes to sell from $3500 up. Vacant lots at all prices. Phone Glendale 1941-W and an auto will call for you.

GOOD INVESTMENT — I sold property for $8000 on contract. New owner is spending $1000 on improvements. It pays over 20 per cent on $10,000 valuation. I need money badly, so will sell contract, $4400, at a very liberal discount. For particulars, address Box 7-11, care Glendale News.

No Better Investments in Glendale Today for Future Home or Speculation

$ 595	Burchett near Pacific	$ 595
$1100	Myrtle, in 300 block	$1100
$1125	Isabel between Lexington and Doran	$1125
$1350	Jackson between Lexington and Doran	$1350
$1500	S. E. corner Isabel and Doran	$1500

These are below value and we can prove it. Desirable residence lots are getting scarcer every day. If building material should drop, there wouldn't be any left in town. NOW is the time to buy lots.
Edwards & Wildey
130 N. Brand Blvd. Glendale 250.

A SNAP FOR SOMEBODY WHO WANTS A HOME—I have decided to sell my new house regardless of cost, as I must have money. This is a beautiful 6-room colonial with all built-in features, breakfast nook, writing desk, bookcase, fireplace, buffet, beautiful bathroom, hardwood floors, large cement basement. Centrally located, with beautiful lawn, orange trees and palm. This place cost $5900. Make me an offer, quick. Must be sold at once. Call on me at 707 Orange Grove Ave., and I will show the place. Phone 2258-J.

FOR SALE
3 room modern bungalow, garage, 50x150 to alley, 1-2 block to car. $3150. Terms.

PERSONALS

H. H. Plasterer and family have moved from 431 North Colorado to 1124 East California avenue.

Mrs. T. Bright of Ocean Park spent several days this week with her daughter, Mrs. Leo Jessen, 339 Howard street.

Mr. and Mrs. A. Englehart have moved from 415 North Kenwood street to the Bertha apartments at 226 North Louise street.

Mrs. Clara Shupp of Los Angeles was the dinner guest today of Mrs. F. W. Chambers, 736 South Glendale avenue, a former schoolmate.

Mr. and Mrs. D. D. Horning of 519 East Windsor Road have as their house guests Mr. and Mrs. N. E. Snell of Buffalo, New York.

Mr. and Mrs. H. H. Plasterer, who recently bought the place at 1124 East California avenue, are making some needed additions to the house.

E. L. Osborn, Sr., and daughter, Grace, of 406 West Wilson avenue, motored to San Diego the fore part of the week. They will return Monday.

Mr. and Mrs. R. L. Holland of 209 Arden avenue attended an auction bridge party given Wednesday evening by Mrs. E. T. Sherer of Los Angeles.

H. H. Chapman and wife, who bought Mrs. M. J. Oliver's property at 1213 North Brand boulevard, are tral avenue. Mrs. Oliver has moved to 1314 North Central avenue.

Mr. and Mrs. E. Chappella and son Eugene of Hollywood were the Sunday evening dinner guests of Mr. and Mrs. H. G. Hosford of 233 North Central avenue.

Miss May Murdow and R. L. Stratton of Pasadena attended the Elks dance last night as the guests of Mr. and Mrs. E. H. Kerker, 136 North Brand boulevard.

Mrs. H. E. McCourtney of 371 Pioneer Drive entertained Thursday night at dinner Mr. and Mrs. D. M. Rodman of Camden, New Jersey, who are wintering in California.

Mrs. William N. Rathbun, 319 Pioneer Drive, was hostess on Thursday at a prettily-appointed 1 o'clock luncheon. Covers were laid for eight.

Mrs. Winona Crawford, of 800 South Central avenue, attended the installation ceremonies of Clara Barton Tent, Daughters of Veterans, in Los Angeles last evening as a member of Department President Fannie Medlar's staff.

Mrs. Donna Hughes of Grangeville, Idaho, who has been visiting friends in Los Angeles and leaves next Tuesday for Roseburg, Oregon, was the guest of honor at a luncheon given by Mrs. A. P. McBoyle at her home, 369 Milford street, Thursday.

A slight mishap occurred yesterday when T. W. Rust of 208 West Lomita avenue, who is working on the building on Brand boulevard which is being remodeled for bank quarters, had the misfortune to have a piece of timber fall on his foot. The injury, although quite painful, was not serious and Mr. Rust is back on the job again today.

Mrs. Priscilla Houdyshel of this city, who is department chaplain of the W. R. C. for California and Nevada, will be one of the guests of honor of the Norwalk W. R. C., who are entertaining the department officers and also installing their own officers today. Other Glendale ladies who will attend are Julina Hayes, Augusta Patterson and Mary Milligan.

Donald G. Cowlin, son of Mr. and Mrs. F. W. Cowlin of 346 Hawthorne street, and Eustace A. Rowley, son of Mr. and Mrs. L. T. Rowley of 334 Vine street, leave tomorrow morning via automobile for San Francisco on the first lap of their journey to Honolulu. These young men will investigate the opportunities offered on the islands and may remain there permanently, they say.

One hundred couples enjoyed one of the most delightful informal dances of the winter season given last night by Glendale Elks, No. 1289, in the ball room. Music for dancing was furnished by a five-piece orchestra, all members of which belong to the lodge. Moving pictures were shown of the picnic which was held two weeks ago. Dancing continued until midnight.

A Roman banquet, served in true Roman style, was given by the Comites club of the high school in the music room at 6 o'clock last evening. Toasts were given by Richard Pomeroy, Louise Wimmer, Marion Grey, Grace Baldwin and Waldo Yard, Miss Marjorie Yarick, who is Consul of the Comites, acting as toastmistress. Miss Doris Packer gave several recitations. Five of the members of the club sang popular songs translated into Latin.

The thirteen girls of the Epsilon Xi Zeta club are giving an informal dance at the Knights of Pythias hall next week. This is expected to be one of the most successful affairs of the mid-winter season. The following are members of the club: Helen Beach, Pearl Pollock, Edith Haggman, Eva Green, Lois Webb, Helen Vredenburgh, Evelyn Williams, Dorothy Haig, Billie Gregg, Elaine Hudson, Mary Logan, Harriet Barnes and Mrs. Leola (Webster) Bresnahan.

INSURE!

I have frequently said, in my "ads," that there are many good and several excellent life insurance companies beside the one I have the honor of representing.

The reason I am with the "Provident" is because I believe it has always stood for everything that is best in life insurance, has written the best forms, and has treated its policyholders fairer and with less errors of judgment than any institution of any kind that I have ever known.

I can and will sell you a contract in any company you may prefer to the Provident, whether I receive any compensation for it or not.

Information and advice as to any company or policy gladly and freely given.

W. B. KIRK

Protector of Homes

ATTENDS LUNCHEON

MRS. CHARLES H. TEMPLE OF GLENDALE IS GUEST AT LAMANDA PARK CLUB

Mrs. Charles H. Temple, chairman of the ways and means committee as well as vice president of the Tuesday Afternoon club, represented that organization at the Reciprocity day luncheon of the Lamanda Park Woman's club on Friday.

Representatives of clubs of the entire district had been invited by the Lamanda Park club to give expression to their ideas of ways and means of raising money to build a club house, and to tell plans they had found to be successful in making money.

Several speakers advocated the plan of building an auditorium first, if money enough for the complete clubhouse were not available, and told from their own experience how this plan had brought in revenue by renting the auditorium to other organizations for their meetings. Other speakers warned against building a clubhouse that would be quickly outgrown and soon become inadequate to the needs of a growing club.

Mrs. Temple described plans by which the Tuesday Afternoon club had been successful in making money, and was complimented on the initiative and progressive spirit of the Glendale club.

Mrs. A. P. Findlay and Mrs. Mabel Ocker were other members of the Tuesday Afternoon club who attended this luncheon.

TRIES OUT PLAN

MRS. C. A. COLE GETS IDEA FROM PARENT-TEACHER ASSOCIATION PLAN

The fact that the Parent-Teacher associations have proved their great worth to the schools, gave to Mrs. C. A. Cole, superintendent of the junior department of the Central Christian Bible school, the idea that the plan might with profit be extended to Bible schools, so she decided to try out the plan.

About twenty-five parents of junior department pupils and teachers of classes met at the Cole home last night and discussed the various problems. The parents seemed to think very highly of the plan and it may be extended to other departments of the school.

HARDING MAY COME TO COAST

ST. AUGUSTINE, Fla., Jan. 22—A trip to the Pacific coast probably will be made by President-elect Harding during his administration, it was learned today. The time of this trip is entirely uncertain, but it is expected to take place when official duties make it feasible for Harding to leave Washington for a short time. Harding begins a six weeks' rest here tomorrow.

SEATTLE, Jan. 22—The mail boat "Joseph Pulitzer," missing since December 20 and feared lost with all hands in the North Pacific, is safe in the harbor at Chignik, according to word received here.

Motor freight bills for 1919 are estimated at $66,000,000.

A DANDY HOME

Somebody's going to get a good home at a bargain. On account of sickness and business arrangements I am going to sell my home at 411 North Central avenue. Can give possession after February 1. It is a beautiful home of ten rooms, all hardwood floors, 4 bedrooms upstairs, cement basement with furnace, automatic water heater,, a dandy cement porch on two sides of the house, an up-to-the-minute house. If yo uwant a good home cheap this is your chance. C. W. Ingledue, 411 North Central. Phone Glendale 2175-W or Glendale 1230.—Adv.

NURSERY KINDERGARTEN

Children 4 and 5 years old cared for daily 9:30 to 12:30. Will call for children. Some kindergarten work, story telling, supervised play, home care. Enrollment by appointment. Special rates if class numbers 10. New class begins work immediately. Mrs. T. L. Millham, Glendale 67-R. 117t4

We have a complete line of notions at "The Corset Shop." 207 East Broadway.—Adv.

HOME AT AUCTION

MRS. ELLA W. RICHARDSON'S RESIDENCE TO BE SOLD WEDNESDAY MORNING

There is perhaps no place in Glendale which has been more hospitable, where more people have been entertained and which has been thrown open to the public oftener for entertainments of a public character than the beautiful home and grounds of Mrs. Ella W. Richardson at 525 South Central avenue. So there is an unusual interest in the announcement that this beautiful place is to be sold at auction next Wednesday.

Mrs. Richardson has found the care of so large a place burdensome since her daughter is married and her sons are away at school, and has decided to move to a smaller house. She has put her home into the hands of C. H. O'Connor & Son, prominent Los Angeles auctioneers, and the place will be put up at auction Wednesday morning at 10 o'clock. There will doubtless be a large crowd of interested bidders due to the attractiveness of the place, its splendid location and the fact that it is so well known.

MOTHERS' CLUB

ACACIA AVENUE SCHOOL HAS ORGANIZATION WITH OVER ONE HUNDRED MEMBERS

The Mothers' club of the Acacia avenue school held its January meeting Friday afternoon. The splendid attendance was an evidence of the interest and growth of this organization, which now numbers over 100 members.

Several interesting reports were given by the chairmen of the various committees, and the one announcing that work had already begun on an additional classroom was especially gratifying.

Mrs. Wayne McNutt, accompanied on the piano by her sister, Mrs. Campbell, rendered two vocal solos in a charming manner. The subject under discussion for the afternoon was "Child Welfare." Miss Frances MacLaren gave the poem, "Training of Children," by Edgar Guest. Mrs. Shinner and Mrs. Sudlow read "Sammie's Prayer," and "Gertrude's Story" from Elizabeth Harrison's book entitled "Misunderstood Children." These readings were listened to with deep interest.

LOCAL ELKS IN BASEBALL GAME

A real spirited game of baseball is anticipated tomorrow when the B. P. O. Elks nine meets that of the M. W. A. at Exposition park. The opposition is conceded to be a very strong team. Crandall will pitch for Glendale and Hastings will catch.

FAVOR GLENDALE DISTRICT

A petition, which will be presented to the county superintendent of schools, is being circulated in the Grand View district, which is now in the Burbank school district, to have that territory transferred to the Glendale school district.

LOSES LEG IN ODD ACCIDENT

SHERIDAN, Wyo.—Ellis Murdock, 14, is in the state hospital here minus his left leg as the result of a peculiar accident. The boy was standing in the bed of a wagon to which was attached a rope by which a horse was being fed. As the wagon passed a tree the horse went on the opposite side of the tree and the lead rope dragged the boy from the wagon and against the tree, where the rope —with the wagon pulling on one end and the horse on the other—cut through the flesh of his leg, "ringing" it to the bone completely around. Amputation was performed as soon as the youth reached the hospital here.

MONTHLY BUSINESS MEETING IS HELD; TALK IS GIVEN BY DR. W. E. TILROE

(Continued from Page 1)

creasing church membership by church letters, he asserted. If the Brotherhood gets awakened the church will not need to send off for an evangelist. A year-'round campaign will be the program.

"In conclusion," said the speaker, "let me leave this word with you. There is nothing so magnificent as to know God."

The Federated Brotherhood banquet is to be held next Tuesday evening in the Methodist Episcopal church and the men will be addressed by Dr. Winfield Scott Hall of Chicago.

ANNUAL BANQUET

METHODIST BOARD IS HOST TO CHURCH CHOIR AND SCHOOL ORCHESTRA

One of the pleasant social affairs of the season was the annual banquet at which the official board of the First Methodist church were hosts to the church choir and the Sunday school orchestra Thursday night in the social hall of the church.

The feast was prepared by one division of the Ladies' Aid, Mrs. Chas. Starkey being chairman of the banquet committee. One hundred and fifty guests sat down to the handsome tables, whose decorations were masses of acacia bloom and favors of tiny yellow baskets of bonbons.

A sumptuous chicken dinner was served, with an appetizing salad, scalloped potatoes, relishes, hot rolls, orange marmalade, and coffee. Cake and peaches with whipped cream were served for dessert. The luscious peaches had been put up by the Ladies' Aid during the fruit season.

Number Make Responses

Dr. H. V. Brown acted as toastmaster. Mrs. A. W. Tower's toast was "The Choir," and it was responded to by Miss Isabel Isgrigg. C. D. Lusby proposed the toast "Our Orchestra," which was responded to by C. K. Aston, leader of the orchestra.

Miss Midcalf's toast was "Our Chorister: An Appreciation," and the toast proposed by Dr. C. M. Crist was "Our Organist."

The banquet was given in appreciation of the fine work and faithful service of both musical organizations. Other guests were members of the families of the hosts, the choir and the orchestra.

RECLAIM TIMBER

PORTLAND MINING ENGINEER SUGGESTS PLAN BY WHICH SALVAGE MAY RESULT

The solution of the logged-off land problem, which is bothering the states of the northwest, can be made to pay its own expenses as well as yield a substantial return if the plan advocated by F. L. Evans, Portland mining engineer, is followed, he claims.

The better way, according to Evans, is to salvage the stumpage by reclaiming the valuable materials it contains. He estimated that 10 cubic feet of stumpage will yield 200 gallons of turpentine, valued at $1.94 a gallon; 600 pounds of tar, valued at $14 a barrel; one ton of charcoal, worth $22 a ton, and numerous other materials in lesser quantities, such as creosote, wood alcohol and formaldehyde. He submitted these figures to show that burning of stumpage is little short of criminal.

Claims Expense Justified

Evans contends to reclaim these materials it would be necessary to erect plants for the chemical extraction of the valuables, but that expense would be justified on a very large scale by the possibilities of the traffic.

"Since the timber owners continue to raze the forests without doing anything to replace them," Evans declared, "and leave the market glutted with a great acreage of comparatively useless land, it seems that the state should take some steps to reclaim the stumpage and put the land in use.

"Land from which the stumps have been burned is useless for cultivation as long as the turpentine and other products of the stumps remain in the ground. The blasting of stumps and consequent chemical extraction of their ingredients would leave the land ready for cultivation," he said.

PRODIGY AT FIGURES ACCUSED

PHILADELPHIA—A sixteen-year-old lad, described as a "prodigy at figures," was arrested here, charged with embezzling $2500 by juggling the books of a jewelry firm by which he had been employed less than a month.

Detectives said the youth confessed he had taken the money and admitted that he was preparing himself for a scientific criminal.

The prisoner, who gave his name as Wallace Hawkins, said he had a widowed mother, but refused to tell where she lived.

The American public has an investment of approximately $3,000,000 in motor vehicles.

For Men Who Care

Yes, we launder dress shirts for men who care—pleated bosoms or plain.

Pleated bosoms are very attractive for semi-formal occasions but some men hesitate to wear them for fear they cannot be laundered properly.

That is because they have never tried our laundry service.

It's not an easy task, so few of the things really worth doing are. But it can be done and we are doing it every day—finishing shirts with that much-sought custom tailored look you admire in them when they are new.

Include your dress shirts in the family bundle. You will be more than satisfied.

TABLE D'HOTE AND A LA CARTE SERVICE
—SPECIAL SUNDAY DINNERS—
LUNCHEON AND DINNER PARTIES A FEATURE

PARTY IS UNIQUE

INDOOR PICNIC IS HELD AT MRS. HUTTON'S HOME FOR LOYAL WOMEN'S CLASS

The pretty, commodious home of Mrs. Eva M. Hutton at 326 East Colorado street, was the scene of a unique party Friday when the lady of the house entertained the Loyal Women's Bible class, whose teacher she is, with an indoor picnic.

The daintily appointed tables extended in T shape through the spacious parlors of Mrs. Hutton's home, and places were marked for thirty-seven. Tasty viands for which this group of ladies are noted were there, and the dinner was a success from the hot biscuits to the pie and cake that topped it off.

The regular monthly business meeting was held in the afternoon. Reports by various officers showed the finances of the organization in good shape, with local expenses paid and missionary funds and contributions toward the new church building fund satisfactory.

Read Monthly Magazine

Games and a social good time were also a part of the afternoon's program, and a feature always enjoyed was the reading of the monthly magazine which the class publishes for its own benefit and enjoyment.

Mrs. E. H. Learned is editor of this publication, "The Loyal Spiel." It has its society page, its editorial and general news department, its column of jokes, and other features, and its reading is looked forward to eagerly by members of the class. Yesterday's issue was "Vol II, No. I" of this paper, marking the beginning of its second year.

New Delivery Project

ST. PAUL—Seven St. Paul stores, including the largest department store in the city, now make all their city deliveries by parcel post and have discontinued their separate delivery systems.

In March, 1919, the venture was made by one department store and gradually other concerns have taken it up, until now a majority of the St. Paul department store purchases for city delivery are distributed to the homes in United States mail wagons and trucks.

Utilization of the mail service for this work has cut the delivery cost to stores from 6 to 9 cents for each package. Under individual deliveries the cost was from 12 to 18 cents.

The postoffice department has been able to handle the additional work by adding seven trucks and thirty men to its force and is handling seven thousand packages daily, according to Postmaster Ott N. Raths who originally proposed the plan.

MOSQUITOES GET JAG

A passenger arriving on the steamship Carillo recently said that life of Americans in the little republic, until they become acclimated, was made almost unendurable by flocks of mosquitoes that invaded the hotels. It was considered the proper thing, particularly by folks from arid places in the United States, to fill up on booze and go to bed immune from the nipping of the gallinippers.

In the morning, the traveler said, the mosquitoes are found about the room in immense numbers, powerless from alcoholic coma and easily killed. Some of those taking the jag treatment do not regain consciousness before the mosquitoes, however, in which case the latter attack a second time and scar their victim, who has not enough alcoholic content left to save himself.

To Sweden belongs the distinction of having the only deaf and dumb corps of the Salvation Army.

It looks as if a number of those dethroned rulers of Europe had been provided with return tickets.

BANK BUYS BONDS

FIRST NATIONAL TAKES OVER $35,000 OF LOCAL ISSUE; AIDS WATER SYSTEM

The acton of the First National bank of this city in purchasing $65,000 of Glendale's municipal water bonds enables the construction of the Verdugo Road reservoir to proceed under the direction of Peter L. Ferry, local contractor, whose bid of $60,800 was declared to be the lowest by the engineer of public service department and the city manager.

The reservoir is to have a capacity of 7,000,000 gallons and Contractor Ferry plans to start work February 1. He proposes to complete the construction in about ninety days.

The First National bank's purchase of the city's bonds permits this quick action and, with the installation of the pipe lines in Glendale avenue, a material improvement will be made in the municipal water system.

MADSEN GOVERNOR CANDIDATE

SACRAMENTO, Jan. 22—Martin C. Madsen, secretary to Governor Stephens, was endorsed for governor in the coming November elections by a special caucus of assemblymen held here. With one exception, the caucus declared in favor of Madsen's candidacy.

The California Taxpayers' association has announced that the efficiency and economy measures proposed by Governor Stephens were not sufficient and that the association would introduce other bills to further restrict state expenditures.

Sixty-eight per cent of the motor trucks produced in the United States in 1919 were of one ton capacity or less.

MAKES PROTEST

UNIVERSITY HEAD OPPOSING JOHN R. WHITE'S BILL FOR BRANCH COLLEGE

Opposition to the creation of a college of agriculture separate from the University of California, on a site to be selected in the San Fernando valley, is developing in the northern section of the state, according to dispatches.

The bill to create the college, at a cost of about $300,000, was presented in the legislature by John Robert White, assemblyman, of Glendale, as told recently in The Evening News.

While Assemblyman White was in Glendale this week, called here by the illness of his son, Kenneth, he stated that he expected opposition to the bill on the part of northern interests. He pointed out, however, that about 80 per cent of the students registered in the university agricultural course are from southern California and, he declared, this, among other things, would seem to warrant a branch college in the south.

The bill is being strongly backed by various Chambers of Commerce and other interests in the valley.

University Head's Message

A dispatch from Berkeley states that President David P. Barrows, of the University of California, in his annual message to the governor, holds the proposed branch college would be a financial waste, a duplication of effort and a loss of efficiency.

"Proponents of this measure," Barrows said in referring to proposed separation of the agricultural college, "point to the fact that some western states have two state institutions, a university and a college of agriculture and mechanical arts. They offer this example to California apparently unaware of the perfectly demonstrated disadvantage which this separation of higher institutions has been to every state which has experienced it.

Alleges Unseemly Rivalry

"Without exception this subdivision has resulted in duplication of plant and staff, waste of money, impairment of effort, unseemly rivalry and the creation of a situation which in many states it now seems hopeless to remedy.

"I look forward with confidence to the campus at Berkeley becoming one of the great centers of teaching and of discovery in the world, but it can only retain this pre-eminence if its parts are whole and not dissipated in obedience to partisanship and local feeling."

Despite the claims of the college head, southern California interests believe that this section is deserving of a branch of the agricultural department, according to statements made by southern assemblymen.

PLANTS AND DRUGS

PARTY OF SCIENTISTS PLANS TO EXPLORE IN AMAZON VALLEY FOR HERBS

A party of chemists and scientists, headed by Dr. H. H. Rusby, dean of the school of pharmacy at Columbia university, will sail shortly for a scientific exploration of the Amazon valley, in a quest for new plants and drugs of medical value.

A government expert in entomology, an authority on ichthology from the University of Indiana, and experts from other institutions will accompany the expedition, which is expected to last a year. New species of reptiles, fishes and insects will be sought by the party which is being financed by the H. K. Mulford company, manufacturing and biological chemists here.

The general route will be the country along the base of the Andes from Villavisensio, southeast of Bogota, to Calabar, several hundred miles south. Here land travel will be abandoned for the descent of the Unanes river. On reaching the Rio Negro, the party will descend to its mouth at the Amazon, and ascend the Maderia, the largest southern tributary of the Amazon river. Frequent stops will be made and collections of plants and drugs taken in the mountains.

To Study Habits of Natives

While the primary object of the expedition will be the search for new drugs and plants and their study, special attention will be paid habits of natives expected to be encountered there, snake poisons, and particularlyly the manufacture of blown gun and arrow poisons. A very superior quality of rubber said to flourish there will be closely examined and specimens taken by specialists on that subject.

Elaborate preparations have been made for an exhaustive study of the plants and drugs. According to present plans, Dr. Rusby will classify botanically all collectons. Microscopical study will be made by Professor Ballard of Columbia, Schneider of Nebraska, and Newcomb of Minnesota. Professors Arny of Columbia, Jordan of Purdue, and Sayre and Haverhill of Kansas will ascertain chemical values. Physiological and medicinal properties will occupy the attention of medical men from Yale, Harvard and other large colleges.

The walrus furnishes about 1500 pounds of meat, 1000 pounds of oil and 500 pounds of leather, and the white whale furnishes much more.

TRACING OF SINS

WOUNDS OF SKULL CAUSE OF MORBID CHANGES, DECLARES EXPERT IN LECTURE

One of the striking points brought out at the child-study lecture of Dr. John Miller before the P.-T. A. Federation at the high school Thursday was the fact that many so-called sins of children, and of adults as well, are traceable to wounds of the skull which have caused lesions of the brain which produce morbid changes in its functions.

This is not a theory, but a fact proven by hundreds of investigations and experiments. Dr. Miller cited cases from his own study of such cases. He told of the surprising change in a young boy who had always shown an unusual love for his younger brother, but who suddenly became as cruel to him as he had been kind before. After all sorts of measures, including the severest punishments, had been tried to change his attitude, as a last resort he was brought to Dr. Miller for examination. Investigation showed that a blow on the skull over a certain brain center caused a pressure there which produced a change in its function, so that the boy who had been loving and kind was now cruel. The skull wound had healed, but the pressure inside had not been removed. An operation restored this boy to his normal, kindly self.

Makes Study of "Bluebeard"

Dr. Miller has made a study of "Bluebeard," the man who had a mania for marrying women and then murdering them. He found that this man had a wound over the brain center, governing conjugal love, or the mating instinct; Dr. Miller considers this man idiotic in this one respect, because of this pressure on the brain. Eminent scientists have confirmed Dr. Miller's findings in this case, and the prison officials have agreed to have surgeons at San Quentin see what they can do toward restoring him. The doctor says San Quentin is the safest place for him, unless this restoration is accomplished. He says he found none of the other evil characteristics ascribed to "Bluebeard" by sensational newspaper write-ups of the case.

The trend or underlying principle of this whole course of lectures is the careful study of the child's characteristics, in order that his good points may be developed and his weak ones strengthened, and in order that his seemingly evil tendencies, if he has any, may be understood, restrained and changed to normality. Evil tendencies are abnormal.

Understanding of Vacation

Such a study of the child's tendencies and possibilities must lead to an understanding of his vocation in life; and his proper placing in life, where he will work for the joy he gets out of his work, must make him a better citizen.

Dr. Miller read from Horace Mann, who comments on the stupidity of educators in keeping on, generation after generation, in putting all the emphasis on the development of the intellect and none on the cultivation of the morals, when every generation demonstrates that hundreds make failures of their lives because of lack of moral training where one fails because of intellectual development.

Ths constructive social welfare work of building up what is weak in man, restraining what is wrong and cultivating what is good in him, Dr. Miller considers the mission of the twentieth century.

PROFITEERS ARE FRIGHTENED

VIENNA, Jan. 22—Mobs, such as formed during the revolution in the streets of Paris, gathered here, sending hundreds of frightened profiteers to the country. Shouting threats, singing martial hymns and rumbling menacingly, the mob followed wagons on which had been erected great replicas of gallows.

Peace officers augmented by retraits from the former Austrian army made no attempt to interfere with marchers. Meanwhile labor organizations served an ultimatum on the government giving it three days' notice in which to reduce the price of necessities. From the temper of the crowds, it was believed assaults may be made on stores and provision houses.

BIG ORANGE AND OLIVE CROPS

OROVILLE, Cal., Jan. 22—The orange and olive crops of Butte county will be bumper crops, according to growers here.

E. W. Ehmann, of the Ehmann Olive company, declared that the olive industry has already started to revive with the restoring of the ripe olive into the confidence of the consumer. Stringent rules laid down by the state board of health will prevent any recurrence of botulismic poisoning, said Ehmann.

The 1920 report of the college of agriculture of the university predicts a bright future for the orange growers of the Oroville district.

The State Highway department of Pennsylvania will have use for 80 trucks, 60 snow plows, 60 road machines and hundreds of men to keep the hard-surfaced main highways open for traffic during the winter months.

Austria has a law requiring every employer to retain as many workmen on his books as he had before the war.

FINANCIAL REPORT

YEARLY STATEMENT SEVENTH-DAY ADVENTIST CHURCH IS READ TODAY

Record of funds received by the Glendale Seventh Day Adventist church during the year 1920 was announced to the congregation at the morning service today.

The report of Mary E. Learned, treasurer, showed that the funds received during 1920, the total of which was passed to the treasurer of the Southern California Conference, was as follows:

Tithe	$26,176.55
Annual offering	835.00
Harvest Ingathering	1,270.85
Midsummer offerings to missions	73.45
Missions	2,495.16
Sabbath school	5,249.05
India — Elder Wood's school	88.00
Africa—Elder Anderson's work	100.00
European relief	1.00
Religious liberty, two offerings	142.20
Colored work	81.05
School fund 1 pct. tithe	72.28
Total	$36,584.59

Church Funds Disbursed

The church funds received and disbursed during the year were as follows:

Balance on Hand January 1, 1920	
Church expense	$ 20.62
Emergency fund	21.87
Church building fund	29.32
Total	$ 71.81
Receipts	
Church expense	$ 860.95
Emergency fund	127.81
Church school fund	2,623.12
Church school B. and E.	2,367.36
Church building fund	15,748.94
Near East relief	107.25
W. C. T. U.	143.35
Sabbath school expense	230.32
Home missions	192.17
Y. P. library fund	12.00
Church school books	263.53
Total	$22,676.80
Payments	
Church expense	$ 849.22
Emergency fund	99.90
Church school fund	2,625.87
Church school B. and E.	2,377.29
Church building fund	15,765.41
Near East relief	107.25
W. C. T. U.	143.35
Sabbath school expense	230.32
Home missions	192.17
Y. P. library fund	12.00
Church school books	263.53
Total	$22,666.31
Balance on Hand, December 31, 1920	
Church expense	$ 32.35
Emergency fund	49.78
Church building fund	12.85
Total	$ 94.98
Overpayments	
Church school fund	$ 2.75
Church school B. and E.	9.93
Total	$ 12.68
Total church funds received	$22,676.80
Funds on hand Jan. 1, 1920	71.81
Total funds, 1920	$22,748.61
Payments for 1920	$22,666.31
Balance on hand	$ 82.30
Less overpayment	$ 12.68
	$ 82.30
Recapitulation—Receipts	
Conference funds	$36,584.59
Church funds	22,676.80
Total funds received during 1920	$59,261.39
Payments	
Conference funds	$36,584.59
Church funds	22,666.31
Total payments during 1920	$59,250.90
	$ 10.49
Funds on hand January 1, 1920	$ 71.81
Funds on hand December 31, 1920	$ 82.30

LONE WOMAN GIVES UP FIGHT

SACRAMENTO, Jan. 22—The job is too big for the one woman lobbyist.

Mrs. A. J. Lawton, president of the Women's Legislative council of California, is asking all women of the council to assist in the fight to put over the proposed amendment to the community property act.

She has informed all women's clubs in California that individual members must confer with their respective legislators during the February recess in regard to legislation being sought by women.

"When the legislators see a lone woman lobbying here they cannot realize how many women are connected with the legislative council," said Mrs. Lawton. "When they find members among their constituents they will think more of proposed legislation."

U. S. TRAINS MECHANICS

The automotive department of the United States vocational school at Camp Dix, N. J., teaches motor mechanics on motorcycles, motor cars, motor boats and airplanes. Instruction is also given in tire repairing and vulcanizing.

Motor trucks are now designed and constructed for every line of business.

Where Quality Counts

Why buy factory seconds when you can buy guaranteed brass goods and plumbing fixtures at the same price by a firm that stands back of its goods and workmanship?

3-piece bathroom fixtures, complete, delivered on your job for $105.00

1 5-ft. guaranteed tub, quick pressure china handles, bath cock.

1 No. 535 Lavatory, quick pressure china handles, basin cocks.

1 low down vitreous china tank with mahogany never-split seat.

Come in and let us show you these plumbing fixtures.

TAX ON TIRES?

SANTA ANA LEGISLATOR TO PROPOSE PLAN TO RAISE MORE STATE REVENUE

More woe for the automobile owner!

Senator Walter Eden of Santa Ana advocates a tax on automobile tires for the purpose of raising additional state revenue, particularly for use in keeping up the highways of California.

Eden declares he believes a law could be drawn to provide for taxing tires according to their size. Such a law, he says, would compel motorists who use the highways the most to pay for their upkeep accordingly. Eden added:

"I think a tax on tires would prove the best way to raise revenue from the motoring public for the upkeep of the state's highways. However, I have not determined as yet whether I shall introduce such a measure."

READY FOR RUSH

MOTOR VEHICLE DEPARTMENT IS PREPARED TO TAKE CARE OF APPLICANTS

After several weeks of preparation, Charles J. Chenu, superintendent of the State Motor Vehicle Department, announces the department is ready for the rush of business that will come with the issuing of 1921 license plates, beginning February 1.

Additional space has been provided in headquarters at Sacramento, and additions have been made to the clerical force. Applications already are coming in and by the middle of the month, there will be a flood of letters.

An order has been placed for 500,000 pleasure automobile license plates, 50,000 commercial plates, and 25,000 motorcycle plates. There also will be other plates for dealers, and cars that are exempt.

STATE-WIDE INVESTIGATION

SAN FRANCISCO, Jan. 22—According to an announcement of the state railroad commission a state-wide investigation of the transit privileges applied to shipments of grain between any and all points in California will open soon. The principal railroads of the state have been ordered to appear for hearing February 24 in San Francisco and March 3 in Los Angeles.

The investigation is an outgrowth of a petition of Albers Bros.' Milling company complaining of transit rates on grain from mills at Oakland, as against those available to the Sperry Flour company from its mills at Vallejo. Discrimination in favor of the latter firm is charged in the complaint.

The Indiana reformatory, at Jeffersonville, is filled with automobile thieves, many of them less than 18 years old.

AUTO DIRECTORY

STATE MOTOR DEPARTMENT IS PREPARING TO GET OUT LARGE PUBLICATION

Charles J. Chenu, superintendent of the state motor vehicle department, announces that his department will resume the publication of the California automobile directory in 1921.

Last year a directory was published by a private firm upon information furnished by the motor vehicle department, but Chenu contends the service rendered has not proven entirely satisfactory, either to the state agencies directly interested in the work or the automobile interests.

Publication of the directory was suspended by Chenu's predecessor, G. B. Daniels, who claimed it was a losing proposition and of little value to the state or to the automobile industry.

Chenu says the directory will be sold at a price to cover the cost of compiling, printing and postage. It will be printed in volumes of 100,000 names each for the first 300,000 or 400,000 names, after which smaller pamphlets will be issued monthly. When completed the directory will contain about 600,000 names.

RECORD SPEED IN THIS CASE

REDDING, Calif., Jan. 22—Arthur O. Davis, confessed slayer of Marshal J. W. Rieves, Redding, California, was taken to the penitentiary yesterday to await hanging on March 25. Davis was sentenced following what was said to have been a record for speed in handling criminal cases.

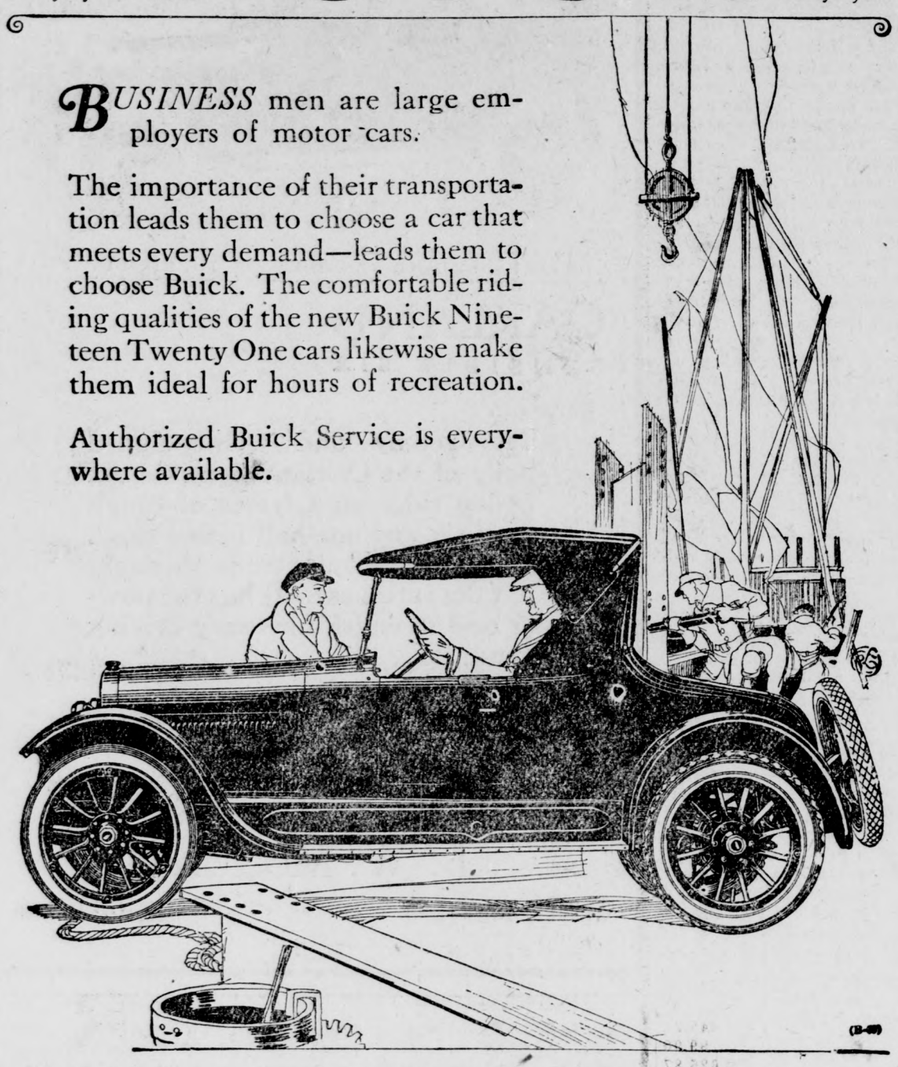
BUICK

Emblem of Satisfaction — Emblem of Satisfaction

BUSINESS men are large employers of motor cars.

The importance of their transportation leads them to choose a car that meets every demand—leads them to choose Buick. The comfortable riding qualities of the new Buick Nineteen Twenty One cars likewise make them ideal for hours of recreation.

Authorized Buick Service is everywhere available.



We have a few desirable Reconstructed Cars at Bargain Prices

TANNER & HALL, 237 S. Brand Blvd.

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

BUICK'S RECORD

COUPE IS DRIVEN FROM BAY CITY TO PORTLAND IN 29 HOURS, 16 MINUTES

The recently announced feat of a 1921 Buick coupe in making the trip from San Francisco to Portland, a distance of 751 miles, in twenty-nine hours, sixteen minutes, breaking all previous records of automobiles and beating the Southern Pacific's fast train, the Shasta Limited, by forty-four minutes, is declared to be particularly noteworthy at this time on account of the road conditions encountered.

Much of the trip is through and over mountain ranges with many sharp turns and steep grades, and there is very little road that can be classed as fair going.

"I have driven over this road several times during the summer months when road conditions are at their best," says Harry Hall, "and I can vouch for the fact that this trip could not be considered a pleasure jaunt at a fast rate of speed at any time of the year. In the winter when deep, sticky mud, slippery ice and snow are encountered practically all the way from Redding to Portland, no one in his right mind would select this trip for a joyride."

The Buick car driven on this record-breaking trip was a regular 1921 stock model, the same as delivered here in Glendale by Tanner & Hall, the local Buick agents.

PLAN OPPOSED

AUTO PLATES WILL NOT BE MADE BY CONVICTS, IS DECISION REACHED

Suggestions that the state could save considerable money each year by having the automobile license plates made by the convicts in Folsom and San Quentin prisons, as is done in New York and other states, are declared by Stanley Benedct, a member of the State Board of Contorl, to be impractical.

Benedict declares state prison officials have investigated the matter and reported against it. In the first place, he says, a special act of the legislature would be necessary; there would have to be a special fund to finance the work; special machinery would have to be installed, and the accuracy required in the work would not be generally found among the convicts.

Another angle of the question, Benedict points out, is that the state wants to avoid as much as possible putting convict labor in competition with recognized industries.

The plates now are made by private concerns, which bid on the work. The 1921 plates are being made by a Los Angeles company.

INSULATION REPAIR

When on the road it is found that wiring insulation is broken, with all its attendant troubles. the injured insulation may be quickly and easily repaired by using a small quantity of the tar which is to be found on top of the battery. Melt the tar, and while it is hot spread it over the break in the insulation and cover the whole job with a piece of cloth. Of course, if electrician's tape is at hand this may be used to repair the break; indeed, this is precisely the sort of service for which the tape is intended.

WHY THE NATION WENT DRY

Probably the first politician on record to make a campaign speech in an automobile was G. H. Eckhart, candidate for governor of Indiana on the Prohibition ticket. This was twenty years ago.

Commercial motor vehicles entering Great Britain are exempt from duty. Passenger cars and chasses pay 33 1-3 per cent ad valorem duty.

MACHINE HUSKS CORN EARS

New in the farming implement line is a machine that strips the ears from cornstalks, which are left standing, and delivers them husked into a wagon.

PREVENTS GRADE SLIPPING

Eighteen pointed spikes, mounted on a circular frame, constitute a new anti-skid attachment for motor truck wheels and to help them to climb grades on icy roadways.

Motor trucks heavier than three tons are restricted from travel on first-class roads in British Malaysia.

TWO YEARS FOR CAR STEALING

Two men and a woman, members of a band of international automobile thieves, were sentenced to two-year terms by the Federal court at Detroit, when they pleaded guilty to plotting to steal cars and ship them to Sweden.

STEAM ENGINES REPLACED

The latest development in the automobile industry is the railway motor car, designed to replace steam locomotives on short line railroads. The use of the internal combustion engine is said to do away with an average of three men to a train.

TEXAS AIDS MOTORISTS

By means of a unique system for keeping in touch with distant points through the use of post cards, telephone and telegraph, the San Antonio Chamber of Commerce is prepared to tell motorists the condition of roads, hunting and fishing throughout the state of Texas.

HIGH-STEPPING TRACTOR

Though it weighs more than seven tons, a new tractor, designed for use in rough country, is so constructed that any of its four wheels can be lifted five feet from the ground without throwing any gears out of line.

Exide BATTERIES

Combinations of power, dependability and long life, giants in strength and durability. Although the price of the Exide Battery was recently reduced 28 per cent, the quality remains the same.

But whatever make of battery you use, register it here for regular inspection. We are battery experts and can add to the life of your battery.

FORD IN JAPAN

ASSEMBLING OF FIRST CAR ON PROGRESSIVE LINE DONE OCTOBER 9

According to Jesse Smith, agent in Glendale for the Ford automobile, Saturday, October 9, was a great day in industrial Japan, for it marked the assembling of the first Ford car on a progressive assembly line similar to those used by the Ford Motor company in its various American branches. The line was installed by Sale & Frasar, Ford dealers for the Japanese Empire, in their Yokohama branch, for the purpose of assembling faster and more economically the knocked-down cars which they receive from the Ford foreign department in New York City. It is equipped to handle a maximum of 200 Ford cars a month.

Many Present at Event

Many of Sale & Frazar's employes, besides a number of specially invited guests, attended the event. Motion pictures were taken of the chassis as it grew from frame to completed car, ready to leave the line under its own power. The Japanese gazed with intentness at the assembling as the car moved along, growing more complete with each man's work.

Following the completion of the car, a banquet, or "chow," as it is known there, was given the Japanese workmen.

DIRECTIONS FOR DRAINING CAR

When draining the water system of the car, it is well to make certain that no water remains in the pipes and jackets by rocking the front of the car. This will throw the water out of bends and pockets. The majority of thermo syphon cooling systems drain off easily enough, but in the pump system it is necessary to use care. It is a good plan in draining off the water to let it run into some receptacle, a large can or pail, so that it can be used again. The reason is that in all water there is a certain proportion of foreign matter that forms deposits on the cylinder jackets and radiator. In the water already used this deposit may be supposed already to have been made, whereas, with fresh water a new deposit will be precipitated. By using the same water over and over again this furring up of the water spaces may be minimized.

MIKADO GOES A-MOTORING

The imperial household garage of the Emperor and Empress of Japan will be completely installed with motor carriages by the first of the year. The delivery of these cars will mark the passing of the last magnificent coaches of state in the Far East.

TRANSMISSION IS IMPROVED AS RESULT WORK DONE IN WARTIME

Number of Improvements Are Made by Inquiry of Engineers; Information Is Given Out

The war has brought a number of improvements in the mechanism of the car. That is to say under the stern lash of military needs many weaknesses were discovered and remedied, which, in the ordinary course of events, would have taken years to bring out. Not all these innovations have yet actually made their appearances, but the coming national shows will undoubtedly place most of them on public view.

Whatever else the war may bring us, it is devoutly to be hoped that some improvement in present types of transmissions or gearsets may result. Engineers are unanimously agreed that the gearset is far the most backward of all the mechanical units that go to make up the modern motor car chassis. And we may reasonably hope that some improvement in transmission design is imminent, so that it will be of interest to examine the present types of this mechanical unit in detail.

Function of Transmission

The function of the transmission or gearset is to change the tractive effort at the rear wheels in proportion to the effort needed. By its means, the rear wheels are permitted to run slowly while the engine is running fast, etc. In general, this control over the tractive effort is obtained by meshing gears of various sizes.

In operation, power is generated by the engine, passes back through the clutch, which delivers it to a shaft, which is part of the transmission unit. On this shaft are a certain number of gears, which may be shifted into and out of engagement with other gears, mounted on another shaft, known mechanically as a countershaft. These gears on the countershaft have varying numbers of teeth, a condition which produces the changes in tractive effort.

Great Expenditure of Effort

The mechanical unit that we have just described is known as the sliding selective gearset, and while it serves its purpose fairly well, it uses a tremendous expenditure of effort to accomplish what is comparatively a small effect. We need a device which shall perform this service in a simpler and easier way, without the constant danger of breakage and injury that exists with the present type.

While the sliding selective gearset is the prominent type today, there are other forms in use. The next most important is the planetary gearset, used in the Ford car, which, in point of mere numbers, makes the type important. The planetary gearset consists of a group of spur gears, always in mesh with a central or master gear. This master gear is known as the sun gear and the spur gears as planetary gears, from a resemblance of the set to the operations of the solar system. In operation the gears are forced to revolve on each other, this action being induced by stopping the movement of the parts supporting the gears, which is accomplished by means of a sort of brake.

When the gearset is in high it revolves as a unit, giving a remarkably efficient action. One of the drawbacks to the planetary gearset is the fact that it can only be constructed for two speeds, as the adding of other speeds adds so much complication that engineers are loath to employ the type. The Ford car, it is scarcely to remind the reader, has but two forward speeds. Still when it is well constructed the planetary gearset serves its end with a reasonable degree of efficiency.

Third Type in Trucks

In the truck field we find a third type of gearset, known as the constant mesh type. This variety of transmission has not come into the passenger-car field as yet and so is of no interest to us for the present consideration.

It is rather a remarkable fact that the simplest and theoretically the most efficient type of gearset, the friction set, has passed out of use in the automobile field. The friction gearset consists of two discs—one driving, the other driven. In operation the driven disc is brought into contact with the driving disc, the rate of speed being determined by its distance from the center of the driving member. Obviously this arrangement gave an almost unlimited number of speeds, smoothness of action, but the great trouble was that the sets did not stand up under the strains of heavy work. At one time it enjoyed great popularity, but it gradually was abandoned for heavy work, and finally even the lightest cars gave it up in favor of the sliding selective type. It is regrettable that the friction set could not stand up under the needs of service, for it had all the theoretical virtues that delight the heart of the engineer.

If the car owner will stop for just one moment and consider the essential construction of the conventional gearset he will realize the need for great care in operation and maintenance. Two shafts holding sets of gears which must be brought into engagement while the parts are spinning at a high rate of speed point to ever present danger of breaking and injury. And this is actually so. Breakage of members in the gearset and bending of the shafts so that they are out of alignment are common in gearset operation.

When the shafts once go out of line there is no hope of decent operation until the condition is remedied; the gears will clash and growl, the teeth will chip or suffer more serious breaks and replacement of gears will do no earthly good until the entire transmission is properly lined up again. When the shafts are out of line the gears do not engage evenly, as they are intended to do, which is the whole secret of the trouble.

The first thing to do to keep the gearset up to proper operation pitch is to give it proper lubrication. Oil is the proper lubricant for this unit, not grease. In winter it will be well to use a somewhat thinner oil than in hot weather, as the cold tends to thicken the oil, anyway. Every two or three months, or, better, every thousand miles of running, the oil should be drained off from the gearset housing, which should be flushed with kerosene and then refilled with fresh oil. Neglect of this precaution will probably bring premature failing of the unit.

Finally let us call attention to the fact that without a gearset operating efficiently the entire operation of the car is thrown out of gear. Understanding that the car owner should give the part the most scrupulous care that he is capable of supplying, systematic care will keep this unit moving efficiently for a long time and this care is easier to give than the time and trouble necessary to repair damage to the part, not to mention the probable repair bills.

Fines ranging from $25 to $100 are imposed on offenders who drive overloaded motor trucks on highways in Pennsylvania.

Hydraulic brakes on both front and rear wheels are among the recent developments for motor vehicles.

BRINGS TRAILER

CROSSES CONTINENT IN HIS ESSEX SEDAN WITH LOAD ATTACHED TO IT

Crossing the continent at this time of the year with a motor-car amounts to something, but when the feat is performed with an eight-foot trailer attached to the car it is worth more than a passing comment.

Dr. F. Homer Curtiss, who recently negotiated the mountain passes, desert country, gumbo stretches and torn up roads was glad to tell his friends all about the wonderful qualities of his Essex sedan. He was accompanied on his trip by Mrs. Curtiss and their secretary, who are particularly pleased with the closed type of car because of the protection from wind, sun and rain afforded by the easily adjustable windows and curtains.

Says Brakes Hold Fast

"Our brakes held perfectly despite the trailer and the ton of baggage," said Mr. Curtiss. "En route to California over Grant's Pass we had to climb for many miles through broken stone and loose earth, where the new highway is in course of construction.

"This state is to be congratulated on its splendid road system. The contrast with other states is most notable. All over America the highways of California are the subject of much favorable comment and we are finding our stay here both profitable and enjoyable."

Essex Car Is Purchased

Chambers & Felts, the local agents for the Hudson and Essex automobiles, sold a new Essex this week to Frank Julian of La Crescenta.

Buys New Oldsmobile

William Hemenway, of the real estate firm of Doner & Hemenway, bought a new Oldsmobile last week from O. F. Meyer, whose local agency for this machine is at 721 East Broadway.

MOTOR PLOW WITH MIRRORS

One type of motor plow of French manufacture is equipped with mirrors that enable the driver to see the ground ahead of him and the work he is doing at the same time.

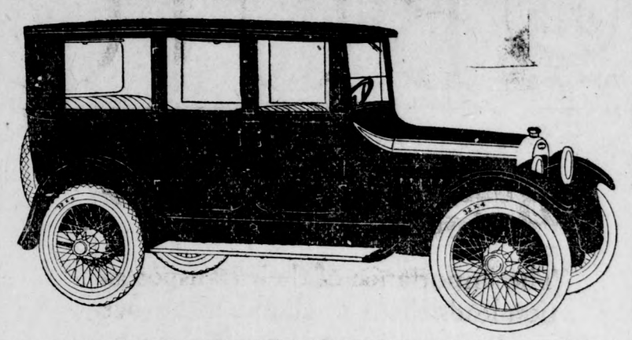
TRACTOR A MOWING MACHINE

An attachment has been patented for converting a gasoline tractor into a mowing machine without interfering with its original use.

France has adopted the motorcycle side car. The vehicle was introduced by the American Expeditionary Force.

Oakland

Oakland owners regularly report returns of from 18 to 25 miles from the gallon of gasoline and from 8,000 to 12,000 miles on tires



THE NEW OAKLAND SENSIBLE SIX FOUR DOOR SEDAN

OAKLAND

SENSIBLE SIX

The roomy and well-equipped body of the Oakland Sensible Six Sedan rides on a frame of tough steel six and one-half inches deep. Similar solidity extends throughout the entire car. It has the power and strength for every driving condition.

WATER AND LIGHT

REPORT IS SUBMITTED FOR FIRST HALF OF FISCAL YEAR BY MANAGER

(Continued from Page 1)

half of the fiscal year will not be as great as in the first half by approximately 30 per cent. On this basis the increase in the water business for the second half of the fiscal year will be $10,192.12 and for the lighting business $11,991.95; a total for the second half of $22,184.07 for the water and light business and for the fiscal year the estimated excess over budget estimates would be $53,475.60; for water business $24,352.29; for lighting business $29,123.31.

"This excess revenue over the budget estimates has been largely on account of increase in the volume of business over the budget estimates. This was caused mostly by the large amount of building that took place during this period necessitating heavy expenditures for water and light service connections and meters, consequently some of the budget appropriations have been overdrawn to date. To cover these overdrafts we respectfully recommend the following appropriations from the excess revenues as set forth above:

Water Business, Capital Accounts	
Purification system	$ 50.00
Distribution mains	500.00
Services	5,375.00
Meters	3,130.00
Construction tools	200.00
Automobiles	1,200.00
Office equipment	200.00
Total	$10,665.00

Water Business, Expense Accounts	
Interest	$ 3,900.00
Pumping	4,506.00
Commercial	800.00
Water stock	200.00
Total	$20,071.00
Unappropriated	$ 4,281.29

Estimated income in excess of budget estimates $24,352.29

Expense of Water Business

"The expense of water business for the six month period ending December 30, 1920 was $40,170.48. This included an allowance of $5511.14 for depreciation. Excess revenues over expense for the same period was $20,521.25. This and the allowance for depreciation provided a total of $26,032.39 for capital investiments in extensions and betterments to the water system.

"The capital investments in the water business during this period amounted to $31,365.93; items as follows:

Purification system	$ 827.14
Distribution mains	1,503.05
Services	6,797.33
Hydrants	966.00
Meters	8,980.60
Construction tools	171.13
Payment on funded debt	8,000.00
Final payment on Meridiro water system and pumping plant	4,000.00
Automobiles	1,046.65
Office equipment	32.37

Light Business, Capital Accounts	
Poles and fixtures	$ 2,000.00
Overhead distributing system	1,120.00
Line transformers and devices	2,349.46
Electric services	2,414.71
Electric meters	4,558.06
Depreciation fund	3,000.00
General office equipment	400.00

Light Business, Expense Accounts	
Production	$ 293.62
Commercial	910.00
General	150.00
Taxes	110.32
Total	$ 9,463.94
	$25,306.22
Unappropriated	3,820.09
Estimated income in excess of budget estimates	$29,126.31

Payment of Two Large Items

"This was $5333.54 more than the amount available for capital investment as set forth above, consequently expenditures on account of capital investments for the last one-half of the present fiscal year will have to be greatly reduced. Revised budget as set forth herewith provides for an expenditure for capital investment in the water business amounting to $10,665 for the last half of the present fiscal year as compared with $31,365.93 expended during the first half. In this connection attention is called to two items quoted above, namely, payment on funded debt $8,000 and final payment on purchase of Meridiro Water company, $4000.

The payment of these two large items during the first half of the fiscal year takes care of all payments on funded debt for the entire year.

"The expense of the lighting business for the six months period ending December 30, 1921, including $6790.20 allowance for depreciation was $54,760.50. Excess revenues over expenditures for this period was $29,865.85. This and the allowance for depreciation provided a total of $36,655.53 for capital investments in betterments and extensions to the electric system.

"The capital investments in the electric system during the first half of the fiscal year were $30,168.66; items as follows:

Poles and fixtures	$ 3,252.57
Overhead distribution system	4,325.05
Underground conduits	17.53
Line transformers and devices	4,101.42
Electric services	6,614.29
Electric meters	7,251.46
Municipal street lighting	443.13
Automobiles	769.85
Elliott-Fisher Bookkeeping machine	1,549.60
Payment on funded debt	1,500.00
Construction tools	179.06
General office equipment	218.28

"This was $6486.89 less than the amount available as set forth above. Revised budget as submitted herewith provides for capital investments on account of the lighting system in the sum of $15,824.28 which will be well within the estimated amount available."

CITY MANAGER

WRITES TO TRUSTEES ABOUT SEWAGE PROBLEMS; MAKES FOUR SUGGESTIONS

(Continued from Page 1)

same consideration as the one specified.

"Our idea in suggesting a committee of twelve was with the realization that it is going to take a great deal of somebody's time to consider carefully the various propositions that may be presented in this connection and that the matter should be given broad and unbiased consideration to the end that all plans that have merit be reviewed carefully.

"If the board should feel that Olmsted & Gillelen are not the engineers desired for this purpose the best plan in my opinion would be to reject their whole proposition and close our dealings with them in this connection without delay, then secure other engineers to advise in this connection. I do not take it, however, that this is the desire of the board. If not it would seem unfair both to the city and Olmsted & Gillelen and to the committee that might be appointed to confine their efforts to the consideration of the Scholl canyon plan as submitted by Olmsted & Gillelen. By enlarging the scope of this agreement as suggested above we would then enlist the interest of competent engineers and a committee of twelve citizens in the consideration of the problem of sewage disposal for Glendale in all its phases for a period of one year.

"It is my observation that there is a great deal of discussion throughout the city on this subject, no doubt it is uppermost in the minds of a great many of our citizens who believe that it should be given first consideration. It is my opinion if the board does not take the initiative and provide for a careful consecutive study of this subject without delay some civic society or citizens' committee will take the matter up independently.

Outlines Plan of Action

"To us the situation seems to call for action as follows:

"1. Authorize revised agreement with Olmsted & Gillelen or reject their plans as submitted and thereby cancel present agreement.

"2. Secure the services of Olmsted & Gillelen or other sanitary engineers to study the problem of sewage disposal for the city of Glendale in conjunction with a citizens' committee as suggested in proposed agreement.

"3. The appointment by the board of a committee as suggested or a definite apportionment of the board's time for studying the problem in conjunction with engineers.

"4. Secure services of sanitary engineers to prepare plans and specifications for sewage disposal in business district and Scholl canyon or instruct the city manager to have the same prepared and authorize him to secure the necessary engineering assistance.

Would Cost City Nothing

"Under the terms of this proposed new contract with Olmsted & Gillelen their services would be secured for a period of one year to study the problem of sewage disposal for Glendale with the incentive that if plans that were acceptable to the people of Glendale were submitted they would be compensated therefor by receiving the usual percentage on the cost of whatever installations there might be in accordance with such plans.

"This would not cost the city anything should they not submit satisfactory plans. It would hardly seem possible to secure the services of sanitary engineers with less obligation on the part of the city."

Durnig the fiscal year that ended with the last day of November, the motorists of Massachusetts paid to the state in fees for registration and licenses a total of $3,860,231, while other users of the highways paid nothing.

STATISTICAL FACTS

MATTERS OF INTEREST WHICH ARE BASIS FOR QUESTIONS MANY TIMES DAILY

Believing that the many new residents of Glendale are vitally interested in the statistical facts concerning the city of their adoption, The Evening News presents below a few concrete items of this kind. These all pertain to matters concerning which many inquiries are made by newcomers:

Population, 1910	2,742
Population, 1920	13,356
Per cent of increase	393
Area in square miles	11.7
Miles of paved streets	60
Miles of unpaved streets	30

Assessed Valuation of Property	
Last fiscal year	$5,504,481
Present fiscal year	9,384,525
Increase	3,880,054

Altitude at Various Points	Feet

Ford
THE UNIVERSAL CAR
ANNOUNCEMENT
We are pleased to announce to the many Ford owners in this vicinity, that we have just made a change in our organization that will assure them the best possible Ford service.
EFFECTIVE AT ONCE
Mr. Alfred M. Land, whom many will remember as foreman of our shop and service floor for several years, has been appointed manager of our sales and service departments. Mr. Land, we are proud to say, is one of the most capable and thorough Ford men we have ever met, and we feel sure this announcement will be enthusiastically received by our many friends.
To all who have heretofore not called on us we extend a cordial invitation. We have the most modern and complete repair shop for Ford work in the San Fernando valley, and we solicit your business. We have two service cars and are prepared to give you the very best of service at all times.
JESSE E. SMITH
Authorized Ford Sales and Service Station
400 East Broadway Glendale 432

STREET PAVING

WEST GLENDALE LEAGUE TO HOLD MEETING; FORESTER GIVES SOME IDEAS

(Continued from Page One)

terson avenue extension which provides for an upper entrance to the city from San Fernando Road, would most satisfactorily provide for gateways on the west and northwest.

Going further into the highway question Mr. Marek called attention to a grave danger attendant upon the opening to travel of the new Glendale boulevard short cut to Los Angeles by way of Ivanhoe and Silver Lake. That is the grade crossing of the Southern Pacific tracks at the south city limits.

Big Danger to Traffic

Travel over this route is bound to be very heavy. A wig wag signal or crossing gates would help some, but reckless motorists would even then cause many accidents.

Mr. Marek advocates crossing under the tracks, which would do away with all accidents. A drain to keep this clear from storm waters could easily be provided, to lead down the highway into the river. This is certainly worth thinking seriously about.

DISTRICT LINES

TERRITORY TO VOTE ON PLAN TO ENTER CITY OUTLINED; BALLOT FEBRUARY 19

(Continued from Page 1)

erly prolongation between the last-mentioned strip and Kenneth Road.

Election on February 19

This leaves as Casa Verdugo, should the annexation carry, an approximate square extending from the Thom ranch west to Melrose avenue and north from a little below Dryden to a little below Kenneth Road. All of Mountain, Randolph and Ross streets would still be outside the city, and the same portion of Louise street and Maryland Ave. as now. More of Brand boulevard and Central avenue would be in the city than now, also all the west side of Melrose avenue, all of San Rafael avenue, the north end and the south end of Valley View Road, three more blocks of the west end of both Dryden and Stocker, the west end of Lorraine, all of Gilbert street and Park avenue.

The election to decide whether or no this territory is to be annexed to Glendale has been set for February 19. The polls will be located at the southeast corner of Pacific avenue and Kenneth Road, and the election officers appointed are James Conner, Mrs. Jessie Mitchell and D. B. Pingree.

Because of a new traffic ordinance, every motorist in Detroit is having his automobile headlights tested by the police department. No fee is charged and the examination requires but a few moments.

The minimum charge for an automobile license in Texas is $7.50, which includes any motor from one horsepower up to 21 horsepower. From 22 horsepower on up, there is a charge of 35 cents per horsepower.

Harry B. Lachmann, an American artist, travels throughout European countries in an automobile studio. He paints landscapes seated on the top of his motor car, to get the necessarily elevated views.

Have You Seen the Adobe Electrical Home?
A home built as a model in architectural design, so conveniently wired and equipped as to make it practically servantless by the modern use of electricity.
This Electrical Home has been exquisitely furnished, artistically decorated and is ready to live in. It has been modernized with every electrical convenience. Fifty appliances are shown in actual operation.
Visit this wonderful home any day between the hours of 2 and 10 p. m. It is located at Second Street and Larchmont Boulevard, Los Angeles.
Take West Sixth St. car marked Melrose, to Second Street, or if you motor, go west on Wilshire to Windsor Boulevard, north on Windsor to Windsor Square.

Sunday Services at the Churches

PRESBYTERIAN

"Church of the Lighted Cross." Corner Broadway and Cedar. At the evening service, 7:30 (organ recital 7:15) the pastor, W. E. Edmonds, will begin a series of addresses which cannot fail to be of marked interest. They are based on Sidney Watson's new book, "Scarlet and Purple." The first subject is called "The Double Tattoo." Jesus Christ was no impostor. The song service will be different. Morning worship 11 o'clock. Dr. J. C. Templeton of Philadelphia will preach. Subject, "The Minister, His Service and Support." Dr. Templeton is spending some time on this coast and is being heard in the leading churches. Sabbath school 9:30. H. L. Finlay, superintendent. C. E. meetings at the usual hours. Musical program: Morning—Prelude, "Andante" (Britton); quartet, "The Heavens Declare the Glory of God" (Wilson); offertory, "Adagio" (Chopin); soprano solo, "O Divine Redeemer" (Gounod), Mrs. Helen Graham Cole; postlude, "Processional March" (Clark). Evening—Organ recital at 7:15. "Intermezzo" (Bizet); "The Pilgrim Song of Hope" (Batiste); "The Swan" (Saint Saens); quartet, "I Heard the Voice of Jesus Say" (Nelson); tenor solo, "I Come to Thee" (Caro Roma), Orrin L. Padel; offertory, "Confession" (Marks); quartet, "The Ransomed of the Lord Shall Return" (Lorenz); gospel solo (selected), Mrs. Fannie Marple Retts; postlude, "Marche Grandioso" (Hall).

FIRST METHODIST

Corner Wilson and Kenwood. Rev. Clyde M. Crist, D. D., pastor. Sunday school (graded) 9:30. Prof. A. W. Tower, superintendent. It is a growing school. "There is a reason." Preaching by the pastor morning and evening. Morning subject, "Fishing Too Near the Shore." In the evening the pastor will continue his presentation of practical themes. Sunday evening's discourse will be on "How to Avoid Family Troubles." Class meeting 12:15. Junior League 3:00. Intermediate League 6:30. Epworth League 6:15. Brotherhood Round Table 6:45. Praise, prayer and preaching 7:30. Excellent music by the surpliced choir under the direction of Miss Isabel Isgrig. Mrs. H. W. Randall at the organ. The acousticon is installed. This is a friendly church and "seems like home."

CHRISTIAN AND MISSIONARY ALLIANCE

Meetings every Tuesday and Thursday, 7:30 p. m. Gospel Tabernacle, 310 E. Chestnut Street, corner of Louise. Full Gospel—Jesus Christ—Saviour, Sanctifier, Healer and Coming King.

CASA VERDUGO M. E.

Near Central avenue school. Pastor, Edward O. Thayer, D. D. Sunday school 9:45 a. m. At 11 o'clock, sermon by the pastor, "Order From Headquarters; Go Forward!" Epworth League, 6:45 p. m. At 7:30, sermon, "Riches of Grace." Special music by the choir. All cordially invited.

CENTRAL AVENUE METHODIST

Bible school 9:45 a. m. Jas. L. Brown, superintendent. Morning service at 11 o'clock, the pastor preaching on "Go Forward'" Special music by the choir. Epworth League at 6:30 p. m. Mr. A. A. Baker, leader. Evening service, 7:30 o'clock. Rev. Brink will preach on "Is Not This the Christ?" Special music.

LUTHERAN

"The Elder Brother" will be the subject of the sermon-lecture by Rev. H. C. Funk Sunday at 11 a. m. This is the third address in the special series, which are attended by large audiences. Special music. Bible school at 10 a. m. Vesper service, 7:30 p. m. Luther League half-hour devotion with the evening address by the pastor; subject, "The Way Made Plain." You are cordially invited.

CHRISTIAN SCIENCE

First Church of Christ, Scientist, corner Maryland and California avenues. Service Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject, Sunday, January 23, "Truth." Sunday school at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 South Brand boulevard, open daily except Sunday and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

FIRST BAPTIST

Ernest E. Ford, pastor. Sunday school at 9:30. Roy L. Kent, superintendent. Classes for all. Public worship at 11. The pastor will preach the first of a series of sermons on the "Kingdom of God." "What is the Kingdom?" followed by "How to Enter the Kingdom," "Position in the Kingdom," and "Extension of the Kingdom." Praise and preaching service at 7:30. Sermon theme, "What Are You Making?" On Wednesday afternoon and evening Dr. Harper and Dr. Petty will speak. The afternoon meeting will commence at 3:00 o'clock and the evening meeting at 7:30. Everybody invited.

CATHOLIC

East Elk, near Adams street. Mass at 8 o'clock. Sunday school at 9. Mass at 10:30. Sermon in English. Everybody welcome. James Stephen O'Neill, pastor.

NEW THOUGHT CENTER

at Masonic Temple, Sunday, Jan. 23, 1921. Lecture by Dr. Frank Riley at 11 a. m. Sunday school, 9:45. All welcome.

CENTRAL CHRISTIAN

Corner Louise and Colorado. Clifford A. Cole, minister. Bible school at 9:30. Willard F. Learned, superintendent. Large men's and women's classes extend a welcome to all men and women who are not enlisted in other classes. Young people's meeting at 6:30 p. m. Morning communion and sermon at 10:30. Sermon topic, "One Plus God." Evening sermon at 7:30. "An Army Officer Accepts Christ." This church welcomes to membership anyone who believes that Jesus is the Son of God, and who recognized that Lordship in a life of obedience. "A Masculine Church." Do not miss our musical features.

FIRST CONGREGATIONAL

Corner Central and Wilson. Rev. Chas. M. Calderwood, pastor. Church school at 9:45 a. m. Morning service at 11. Subject, "The Admissions of Jesus." 6:30 p. m., young people's meeting. Evening service at 7:30. Subject, "A Study of Psalm 27."

THE BEAUTIFUL Home of Mrs. Ella W. Richardson

To Be Sold at Auction WEDNESDAY, JANUARY 26th, at 10 a. m.

Located corner South Central and Riverdale Drive—525 Central Avenue

Home and Lot 100x150, also Adjoining Lot 55x150

Magnificent View of Mountains

This home is known to everyone in Glendale for its wonderful hospitality. It has been the scene of many delightful affairs that will long be remembered by those who attended. Mrs. Richardson is giving up this home, as everyone knows, because she is alone and expects to seek smaller quarters.

The grounds are very attractive, being surrounded by fence—concrete base with brick pillars—covered with rose vines. There is a large concrete tennis court. Beautiful shade trees, shrubbery, flowers, and even a fish pond. Two-car garage, chauffeur's quarters. Large concrete porch across front of house with sun parlor at one end. The living rooms of this home are unusually attractive, the reception hall, den and drawing room are finished in Oregon pine. Beamed ceilings and a good old-fashioned brick fireplace give that homey atmosphere. The spacious dining room is finished in Golden oak, wonderfully light and airy, has handsome buffet and china cabinet combined, also a cheerful fireplace. The kitchen is ideal, extra large cupboard space. Pleasant breakfast room. Large porch with laundry trays, lavatory, broom closet and store room. Three bedrooms, unusually large clothes closets. Two baths, large closets and built-in effects. Spacious amusement room on second floor. Extra large concrete and brick basement. Gas furnace, Superbo automatic water heater.

Everything used in the construction is of the very best and will bear the closest inspection. Quarter sawed oak floors throughout. Best of hardware and exquisite fixtures. Don't wait until day of sale before investigating. Sale Positive—No limit—No reserve—a home to be proud of.

Two Beautiful Bungalows

Located at 150 Windemere Street EAGLE ROCK

To Be Sold at Auction Monday, January 24th, at 2:30 p. m.

These homes, one 5 and one 6 rooms, are brand new, having all the very latest built-in features; ideally located on side hill. Only 5-cent fare to city with book, and free phone to city.

Make it your business to inspect these homes—open for inspection every day, previous to day of sale. Drive east on Colorado Boulevard to Windermere and turn north.

ATTEND RECEPTION

GLENDALE RESIDENTS GUESTS AT ELABORATE AFFAIR IN LOS ANGELES HOME

Mr. and Mrs. P. Markham Custer, Mrs. Custer's sister, Mrs. Lucille King Cox, the artist, and their friends Mr. and Mrs. Arthur H. Dibbern, attended a reception Thursday night at the home of L. E. Garden Macleod, the artist, on Occidental boulevard, Los Angeles.

Among the large assemblage of guests were distinguished personages including Baron and Baroness Sackson; Count Frerra, the artist; Major Byers, the poet; Mr: Armstrong, the writer; Mr. Downe, the Australian baritone, and Mrs. Downe; Mr. Amoura, the organist and composer; Mr. and Mrs. Baron, well known in musical circles; Bruce Gordon Kingsley, composer and organist; Princess Provlova, who was compelled to bob her hair and disguise herself as a male peasant in order to escape the Bolsheviki who pillaged and destroyed her mansion in Russia; Professor Larkin, of Mt. Lowe, who showed some lantern slides of the moon and stars; J. Forsyth, the poster artist and others distinguished in various lines of endeavor.

For the month of September, Germany sent to Great Britain 416 completely equipped commercial motor vehicles.

It is estimated that 155,000 motor vehicles are used every day for the transportation of freight and passengers from the currounding country to New York.

COMPLETES PLANS

ARTHUR G. LINDLEY, LOCAL ARCHITECT, HAS DESIGNED METHODIST BUILDINGS

Architect Arthur G. Lindley has completed plans for a new Methodist Episcopal church building at Lankershim, of frame and hollow tile construction, with plastered exterior.

He is preparing plans for alterations of and additions to the Florence avenue Methodist Episcopal church, Los Angeles. The main auditorium is to be enlarged, a concrete basement put in, Sunday school rooms enlarged and moving picture apparatus installed, all to cost about $10,000.

Plans are being prepared also for alterations to the Pico Heights Methodist Episcopal church building, Los Angeles, the main auditorium to be remodeled, thirteen class rooms for the Sunday school added and new plumbing installed.

DIRECT PRIMARY

BIG FIGHT IS EXPECTED TO OCCUR IN LEGISLATURE OVER PROPOSED BILL

SACRAMENTO, Jan. 22—One of the big fights that will take place in the legislature will be the fight over the direct primary law.

A bill has already been introduced by Assemblyman John Robert White, of Glendale, providing that candidates cannot receive the nomination of a party of which they are not a member. This to be the center of the fight.

Some hold that to abolish the present system would be a reversal to the old time party control system. Others maintain that this system gives the voter a wider choice of candidates.

Plans to Lead Opposition

Assemblyman Roy Fellom, San Francisco, announced that he would lead the opposition to a change of the present system.

"To go back to the old system would place the county committees in charge, and would be a step backward in the march of progressive legislation," he said.

Assemblyman Crittenden has prepared a bill which is aimed at a compromise. His bill provides that the names be printed on ballots as at present, and that a candidate receive as many nominations as possible, as at present, but that after each candidate's name appear a word designating his political party.

Assemblyman T. M. Wright has been named vice-president of the committee on elections. Crittenden is chairman.

FURTHER DELAYED

SECOND STREET TUNNEL WORK HELD UP; GLENDALE WANTS IMPROVEMENT FINISHED

The construction of the Second street tunnel in Los Angeles, which has been under consideration for several years and which, it was announced several months ago, would be commenced at once, is being still further delayed by the complaint of an owner of property within the assessment district who lives in Canada, in the U. S. District court.

Several previous suits have been brought, all in the state courts, but unsuccessfully.

Glendale is interested in the successful completion of this work from the fact that traffic over the new paved boulevard from the south city limits over Glendale boulevard by way of Ivanhoe and Silver Lake would reach the heart of the business district of Los Angeles by passing through this tunnel.

EAST BROADWAY

WELFARE ASSOCIATION PLANS TO HOLD MEETING MONDAY NIGHT AT SCHOOL

The auditorium of the Broadway school has, after considerable unavoidable delay in getting seats, been at last furnished with them and on next Monday night the Glendale Welfare association, the east side improvement organization, will hold an open meeting there to which a general invitation is given.

The proposed charter for the city will be discussed and other matters of interest, particularly to that section of the city east of Everett street.

HAS POCKET IN WOODEN LEG

PARIS—Two Belgian youths arrested in Brussels recently were thoroughly searched before being put in charge of a policeman to be taken to jail.

Hardly out of the station, however, when one of them produced a gun out of apparently thin air and killed the policeman.

After eluding the police for some months, the two were finally arrested in Paris, where Prevost, the elder of the two, showed the police that he had a wooden leg.

In a cleverly contrived pocket near the knee was the revolver.

Probably a man's beard is more persistent in growing because his face gets a lot more exercise than the top of his head.

The only European motor trucks now being sold in Mexico are of German origin.

AIRPLANE FOR SOWING GRAIN

The newest idea for agriculture is an airplane equipped for the planting of the farmer's field with seed. It has a system of perforated metal tubes, laid crosswise on the wings, out of which the seed is forced by air pressure treated by the flight of the plane.

This kind of flying machine, as described by Popular Mechanics, is built for slow speed, with a roomy fuselage that provides capacity for a large quantity of grain. On each trip it plants a row thirty-six feet wide. Flying only a few feet above the ground, it ejects the seed with sufficient velocity to bury it to the requisite depth in loose, prepared soil.

At the end of each wing tip there is a tube to throw down a thin stream of white lime, marking the line of the planted belt. In practice only one tube would be used at a time, the other being shut off. By this means it should be practicable to plant one square mile, or 640 acres, in six hours flying forty miles an hour and allowing one minute at each end of the field to turn and get lined up with the white marker.

With a sowing capacity of 1000 acres a day, one machine could adequately serve a large grain growing district, working either on the cooperative basis or by contract.

The handle of a recently patented broom is tubular and can be connected to a hose so that water flows through the broom when it is desired.
